APPENDIX A

DEFINITIONS and EXAMPLES

All school systems must apply a uniform definition to ensure comparable and consistent data statewide. The following are standard completer definitions for all state and federal reporting.

School Year:
A school year is defined as the 12-month period beginning with the normal opening of school in the fall.

Membership:
Membership is as October 1, the count of students on the current roll of the system which actually provided more than 50 percent of the student’s instruction. A student may be carried on the roll of only one school system at a time.

Completer:
A student who graduated from high school or completed an approved education program and received formal recognition from local school system authorities.

Report all students who completed the normal course of study for high school. Report both regular diploma recipients and other high school completers.

In past years, 5th, 6th and 7th year completers were reported in separate categories. This is no longer the case. Be sure to include them in regular diploma recipients or other high school completers, if appropriate.

Please Note: This does not include persons receiving a diploma of high school equivalency. GED’s are not counted as high school completers in this system. A student must be officially withdrawn from membership in order to take the GED tests. If your board formally recognizes GED recipients (i.e., a school system awards a local high school diploma based on a student’s successful completion of the GED tests), they should be reported under the "Other High School Completer" category.

High school completers should be reported under the Type of Completer:
RD = Regular Diploma
OC = Other Completer

Diploma Recipient: An individual who received a regular diploma during the previous school year and subsequent summer school.
- Includes System Approved Alternative Programs.
- Diploma Recipient is the only category NDE uses to calculate graduation rates.
- Special Education Students: Special Education students can be reported in either completion category depending on language contained in the students Individual Education Program (IEP).
Other High School Completer: An individual who received a certificate of attendance or other certificate of completion in lieu of a diploma during the previous school year and subsequent summer school.

- Other High School Completers are not used in calculating the graduation rate.
