Add a New Substitute Teacher

Data from the previous year will be pre-populated in the List of Teachers section. This list can be revised on an individual basis. (See instructions in the List of Teachers section below.) If a Substitute is not listed, or the district is a new District/System reporting Substitute teachers for the first time, there will be no pre-populated data. All Substitutes will need to be added or uploaded. Substitute data can be added individually and is done here.

A Substitute teacher can be added by entering the LAST NAME, FIRST NAME, NDE Staff ID, DAYS TAUGHT, and clicking **ADD**.

ADD A NEW SUBSTITUTE TEACHER

LAST NAME	FIRST NAME	NDE Staff ID	DAYS TAUGHT (xx.x)	
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="button" value="ADD"/>

All fields are required.

NDE Staff ID is assigned to a Substitute when their certificate is approved. It is a unique ID specific to that Substitute's first and last name. If a Substitute's NDE Staff ID is unknown, it can be obtained by accessing the NDE Staff ID collection available in the NDE Portal under the Student and Staff (NSSRS) tab. (Access to this application requires an appropriate activation code. Contact the portal District Administrator if needed.)

Days Taught are reported at either .0 or .5. A teaching day is any day in which more than three hours is spent teaching. Teaching half days is any teaching day in which three hours or less is spent teaching. For computation, two teaching half days equal one (1.0) full teaching day.

When entering a New Substitute Teacher duplicate NDE Staff ID's are not allowed. If a duplicate NDE Staff ID number is entered, a prompt will appear saying "This staff member's NDE Staff ID is already in the database. Please check the list below to update".

Certification Status

Substitute teachers are required to have the appropriate certificate from Nebraska Department of Education Educator Certification (NDE Educator Certification). When entered into the Substitute Teacher collection, the Substitute teacher's name and NDE Staff ID are verified against NDE Educator Certification data. The Certification Status column will display the results of checking this certification as of when the Substitute teacher records are viewed.

1. OK - The Substitute teacher's NDE Staff ID matches NDE Educator Certification. The teacher also has a current certificate valid for substitute teaching.
2. Not Found - The Substitute teacher could not be found in NDE Educator Certification. This means the NDE Staff ID is incorrect, the name and NDE Staff ID differ from what NDE Educator Certification has on file, or the teacher does not currently possess a certificate. Please contact NDE Educator Certification* to verify the person does possess a valid certificate appropriate for substitute teaching.
3. NDE Staff ID Invalid - The Substitute teacher's NDE Staff ID differs from what NDE Educator Certification has on file. Double-check the NDE Staff ID number entered or contact NDE Educator Certification* to verify the Substitute's name and NDE Staff ID with their records.
4. Not Currently Certificated - The Substitute teacher's record is found with NDE Educator Certification. However, the Substitute does not currently have a valid certificate appropriate for a Substitute teacher. Please contact NDE Educator Certification* for more information or to verify the status.

Frequently Asked Questions

1. Do I report Pre-K Substitutes?

Substitutes requiring certification are reported in the CDC Substitute Teachers collection. If the Pre-K teacher requires a certification through a Rule 11 program, than a substitute for that position would be reported. If the Pre-K employee does not require a certification (Nonpublic Pre-K), than a substitute would not be reported.

2. What are the types of Substitute certificates?

Local Substitute Teaching Permit:

A permit valid for ninety (90) substitute teaching days per school year only in the Nebraska school system requesting the issuance. Candidates can apply for more than one Local Substitute Permit with and application and fee for each school district. The permit expires August 31st in the third year following the year of issuance.

State Substitute Teaching Permit:

A teaching permit valid in all Nebraska school systems, but persons holding such permit may not teach more than one hundred and eighty (180) teaching days in the same school assignment and only on a non-contractual basis. If requested by the applicant at the time of application, such permit shall be valid only in Nebraska public and nonpublic school systems. The Substitute teaching permit expires on August 31st in the fifth year following the year of issuance.

Substitutes must have a certificate or permit. If there are further questions, contact the Educator Certification group at 402-471-0737 or nde.tcertweb@nebraska.gov.

3. Are substitute nurses reported?

No. Only individuals substituting for teachers are reported. People hired to fill in for non-teaching positions are not reported (nurses, counselors, social workers, coordinators, principals, paraprofessionals, etc.)

4. Can any other type of certificates be used for Substitutes?

In addition to the local and state substitute permits, initial, standard, and professional certificated teacher and administrators are able to substitute. Other permits and certificates may also be allowed to substitute in accordance with the limitations printed on their permit or certificate.

5. How do I report a long term Substitute?

There are many components to this answer. As such, it is best to contact Accreditation, Educators Certification or the NDE Helpdesk for more information.

A substitute teacher can serve to teach in an 'unfilled' classroom instruction position, up to the limits (number of days) of their substitute permit. However, individuals serving as substitute teachers cannot be hired on a teacher's contract, and cannot serve as the 'teacher of record' when entering grades in ADVISER or course(s) in Nonpublic Curriculum. Someone else on staff (principal, counselor, etc.) must be entered into ADVISER/Nonpublic Curriculum as the teacher of record for that course if a substitute is being used to fill the instructional position.

If the substitute has a regular teaching certificate, they can be reported in staff reporting and serve as the 'teacher of record'. They may, or may not be, under contract and they may, or may not be, endorsed for the classes they are subbing for.
